ABOUT HOMEONE

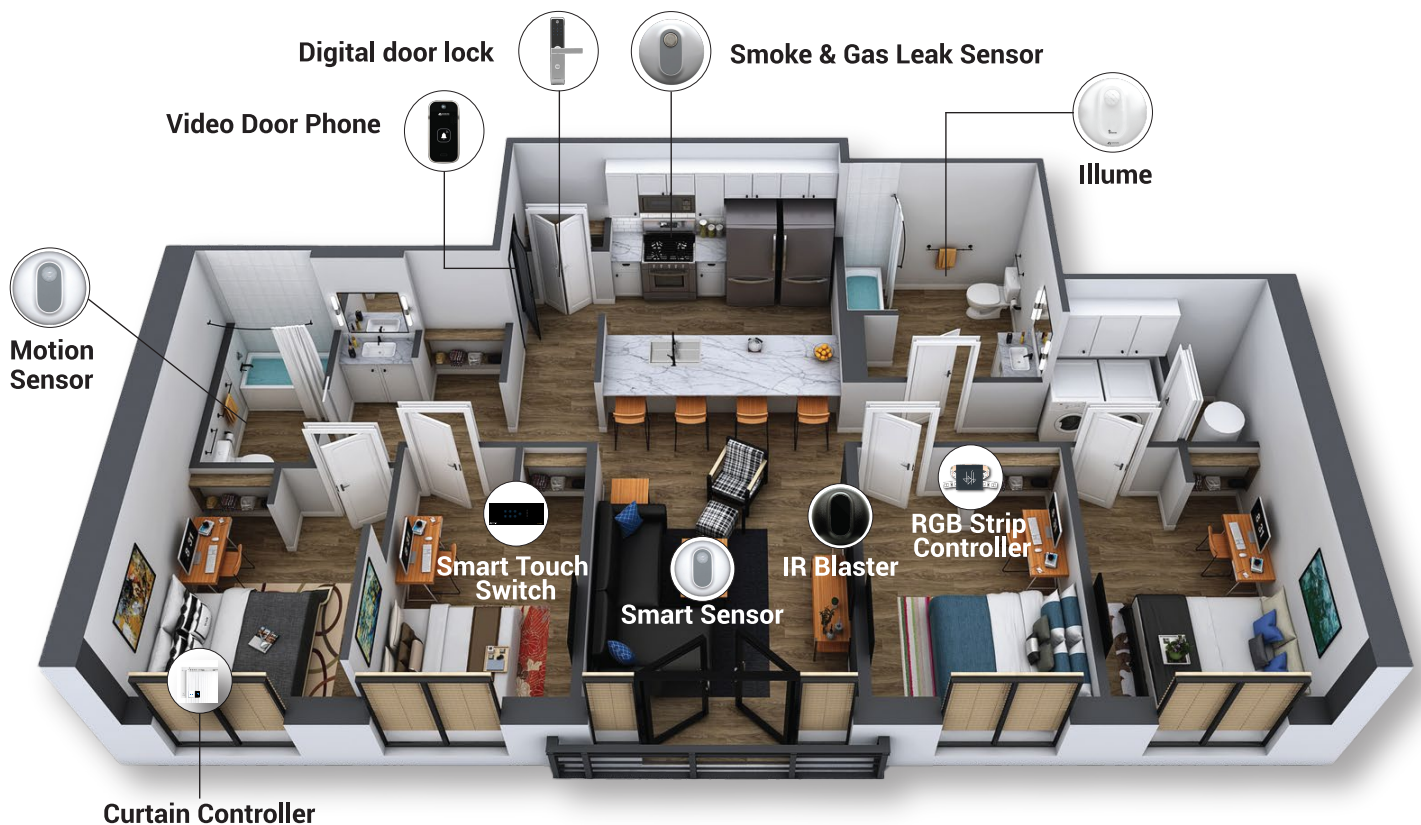

Established in 2017, we are primarily working in the space of Smart lifestyle, dealing with the End-to-End aspect of home, hotel & commercial automation with R&D, designing, manufacturing, installation service & after-sales service. We've encompassed quality products, honesty in dealing & reliability in service.

Our clear vision entrenched us, incorporating the true value of technology with humans and his lifestyle, and have always pursued, "**Connecting smiles from miles**" like our brand voice.

We as HomeOne Technologies at its core have always endeavoured to bring products that are produced at Highest quality of standards, have less carbon footprint impact, and are Future-ready, and this acts as a catalyst in our day-to-day work culture, everyday advancing for a better tomorrow!

WHY CHOOSE US?

- ✓ AI powered Home Automation
- ✓ Free Post Sales Services
- ✓ On-time Order processing & Delivery
- ✓ OEM Manufacturing & Support
- ✓ 24X7 premium customer support
- ✓ In-house State of the Art Manufacturing
- ✓ Conscientious Sales Team
- ✓ Unmatched Replacement Guarantee*
- ✓ Customizable product options
- ✓ One Stop Shop

4 MODULE - SMART TOUCH PANEL

FEATURES

- Premium scratch-proof hardened glass face plates with diamond cut edges
- Live energy analytics with AI enabled Rules framework
- Control via App, Voice Command, geo-fencing & scheduler
- Retrofit installation to turn your existing appliances to smart appliances
- Child Lock, Cleaning Mode, Sleep Mode

No of touch switches	4+(M) / 5
Connectivity Protocol	Wi-Fi 2.4GHz / Zigbee
Wireless range	Upto 60m
Relay rating	230 V, Upto 7Amps
Dimmer	Upto 2

6 MODULE - SMART TOUCH PANEL

FEATURES

- Premium scratch-proof hardened glass face plates with diamond cut edges
- Live energy analytics with AI enabled Rules framework
- Control via App, Voice Command, geo-fencing & scheduler
- Retrofit installation to turn your existing appliances to smart appliances
- Child Lock, Cleaning Mode, Sleep Mode

No of touch switches	M+6
Connectivity Protocol	Wi-Fi 2.4GHz / Zigbee
Wireless range	Upto 60m
Relay rating	230 V, Upto 7Amps
Dimmer	Upto 3

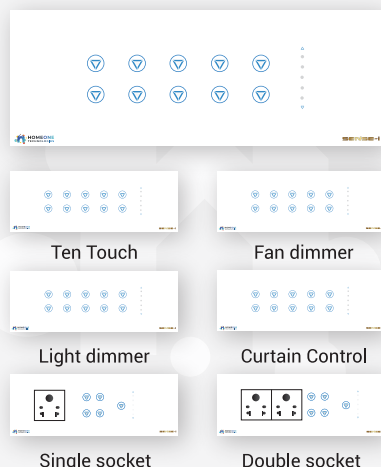

**CUSTOMIZABLE
COLOR OPTIONS**

8 MODULE - SMART TOUCH PANEL

FEATURES

- Premium scratch-proof hardened glass face plates with diamond cut edges
- Live energy analytics with AI enabled Rules framework
- Control via App, Voice Command, geo-fencing & scheduler
- Retrofit installation to turn your existing appliances to smart appliances
- Child Lock, Cleaning Mode, Sleep Mode

No of touch switches	9+10(M)
Connectivity Protocol	Wi-Fi 2.4GHz / Zigbee
Wireless range	Upto 60m
Relay rating	230 V, Upto 7Amps
Dimmer	Upto 4

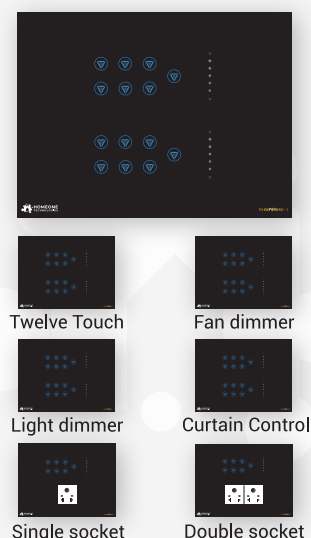

**CUSTOMIZABLE
COLOR OPTIONS**

12 MODULE- SMART TOUCH PANEL

FEATURES

- Premium scratch-proof hardened glass face plates with diamond cut edges
- Live energy analytics with AI enabled Rules framework
- Control via App, Voice Command, geo-fencing & scheduler
- Retrofit installation to turn your existing appliances to smart appliances
- Child Lock, Cleaning Mode, Sleep Mode

No of touch switches	Upto 20
Connectivity Protocol	Wi-Fi 2.4GHz / Zigbee
Wireless range	Upto 60m
Relay rating	230 V, Upto 7Amps
Dimmer	Upto 9

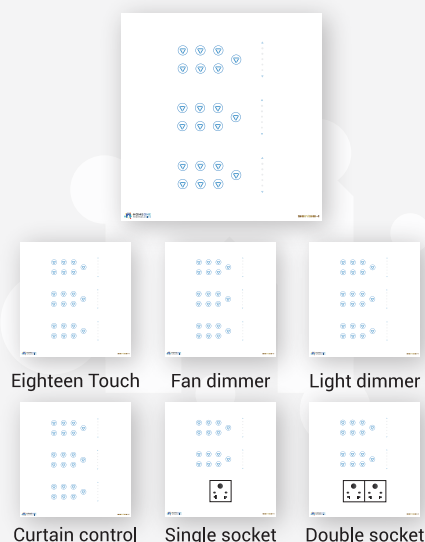

**CUSTOMIZABLE
COLOR OPTIONS**

18 MODULE- SMART TOUCH PANEL

FEATURES

- Premium scratch-proof hardened glass face plates with diamond cut edges
- Live energy analytics with AI enabled Rules framework
- Control via App, Voice Command, geo-fencing & scheduler
- Retrofit installation to turn your existing appliances to smart appliances
- Child Lock, Cleaning Mode, Sleep Mode

No of touch switches	Upto 30
Connectivity Protocol	Wi-Fi 2.4GHz / Zigbee
Wireless range	Upto 60m
Relay rating	230 V, Upto 7Amps
Dimmer	Upto 12

CONTROLLER**

**8 SWITCH
CONTROLLER**

- Convert your switches into smart switch which turns on lights, fan into smart appliances via App, Voice assistant or geo-fencing as well as scheduler.
- Easily hides behind your manual switch board.
- Long range operation helping to cover super-large spaces.
- Provides real time updates to your smart phones as soon as device is activated.

Wireless range	Upto 30m (WiFi) / 60m(Zigbee)
Operation voltage	AC 90-270Volt, 50-60Hz
Operating load	7A - 30A
Installation	Inside Switch Board
Dimmer	Upto 4

SMART SENSOR / SECURITY SENSOR

- One of a kind sensor with light, temperature, humidity and motion sensor all included into one.
- Detects motion on intrusion, automatically controls temperature and balances the lighting conditions.
- Integrates with AI enabled Rules Engine and serves as Energy efficient smart device for smart homes, helps in saving electricity and increasing appliance life.

Wireless Range	Upto 30m (WiFi) / 60m(Zigbee)
Detection Range	12m
Sensors	Light, Motion, Temperature
Power Rating	230 VAC / Battery Operated
Installation	Ceiling

SMOKE AND GAS LEAK SENSOR

- Gas leak sensor & Smoke sensor rings an alarm on smoke detection and gas leakage.
- Inbuilt hooter which rings loud alarm.
- Smart Device with smart sense technology which gives notification on the smartphones, also notifies on Alexa or Google Home.
- Configurable threshold for gas leak / smoke detection for different settings.

Wireless Range	Upto 30m (WiFi) / 60m(Zigbee)
Detection Range	Upto 3.5ft From the Source
Sensor	Smoke, LPG, CNG, PNG & CO
Power Rating	230 VAC / Battery Operated
Installation	Wall

OCCUPANCY SENSOR

- OccuPi sensor helps to keep check on the count of human presence and operates appliances accordingly with wireless connectivity, and ai support.
- Presence monitoring and AI C.O.R.E works hand-in-hand monitoring your electricity usage and can be integrated with your BMS system on request.
- On App calibration for object and head-count detection.

Wireless Range	Upto 30m (WiFi) / 60m(Zigbee)
Sensor Range And Detection	Height-upto 4m,Area-Upto 6sq.ft
Power Rating	5V DC
Installation	Ceiling

STANDALONE MOTION SENSOR

- Pyro-electric PIR Motion Sensor with modern and aesthetic design.
- Motion sensor can sense movement and take action like a switch that is turned off or on by motion and which can control any device connected to it.
- Cascading timer with adjustable lux and delay setting.

Sensor Type	Pa-pir
Sensor Detection Range	12m
Power Rating	230 VAC
Installation	Ceiling

MOTION SENSOR (ECO)

- ECO Series Motion Sensor an energy efficient home automation device leads you to the way of smart automated living.
- Motion detector with PIR motion sensor which tracks the human movement near device vicinity and also turns on/off the smart home lighting.
- Motion Sensor with modern and aesthetic design with amazing usability with features.

Sensor Type	Pir
Sensor Detection Range	7m
Power Rating	230 VAC
Installation	Ceiling

ILLUME (MOTION SENSOR LED LIGHT)

- Our smart LED light helps you to detect your motion & automatically turns on/off Inbuilt LED lights.
- Only works when detects human motion and negates any in animate motion.
- Available in 3 variant and different power option as well.

Model	4W Battery operated, 12W/15W/18W
Sensor Detection Range	12m
Power supply	Battery source / 230 VAC
Installation	Wardrobes/ Staircase/ lift lobby/ Parking/ Cupboards/Kitchen Trolleys

**OPERATION USING
WIFI / ZIGBEE**

**OPERATION UP TO
30M / 60M**

**360 COVERAGE

CONTROL**

IR-BLASTER

- A smart home technology which lets you control all your smart devices functionally from your smartphones with IR Blaster.
- Control your TV channel list, or the AC temperature, vibe with your favorite music and many more smart features.
- Integrates with Google home / Alexa to give you seamless operation through voice

Wireless Range	Upto 30m (WiFi) / 60m(Zigbee)
Operation Range	Upto 12ft, 360°coverage
Sensor	20 Powerful LEDs
Power Rating	230 VAC / 5 VDC
Installation	Wall/Ceiling

**EASY
INSTALLATION**

**OPERATION USING
WIFI / ZIGBEE**

**OPERATION UP TO
30M / 60M**

CURTAIN CONTROLLER

- Smart curtain setup with its motorized features, it controls the curtain operation with the help of the motor and passes information to the touch buttons & app and vice versa.
- You can now control the activity of your automatic curtains with just a touch using a remote on your smartphone.
- Schedule the curtains to slid open and close according to your schedule.

Wireless Range	Upto 30m (WiFi) / 60m(Zigbee)
Hardware	Vertical Or Horizontal Motor With Touch Switches
Power Rating	230 VAC
Variant	Sliding / rolling curtain / roman blinds
Installation	Window

GATE CONTROLLER

- Automatically detects your presence and opens/ closes the gate, you can check on entry gate who's waiting.
- Give command from your smart phone to permit entry.
- Easy, hassle free AI integration helps you to manage logs of entry and exit providing maximum security.

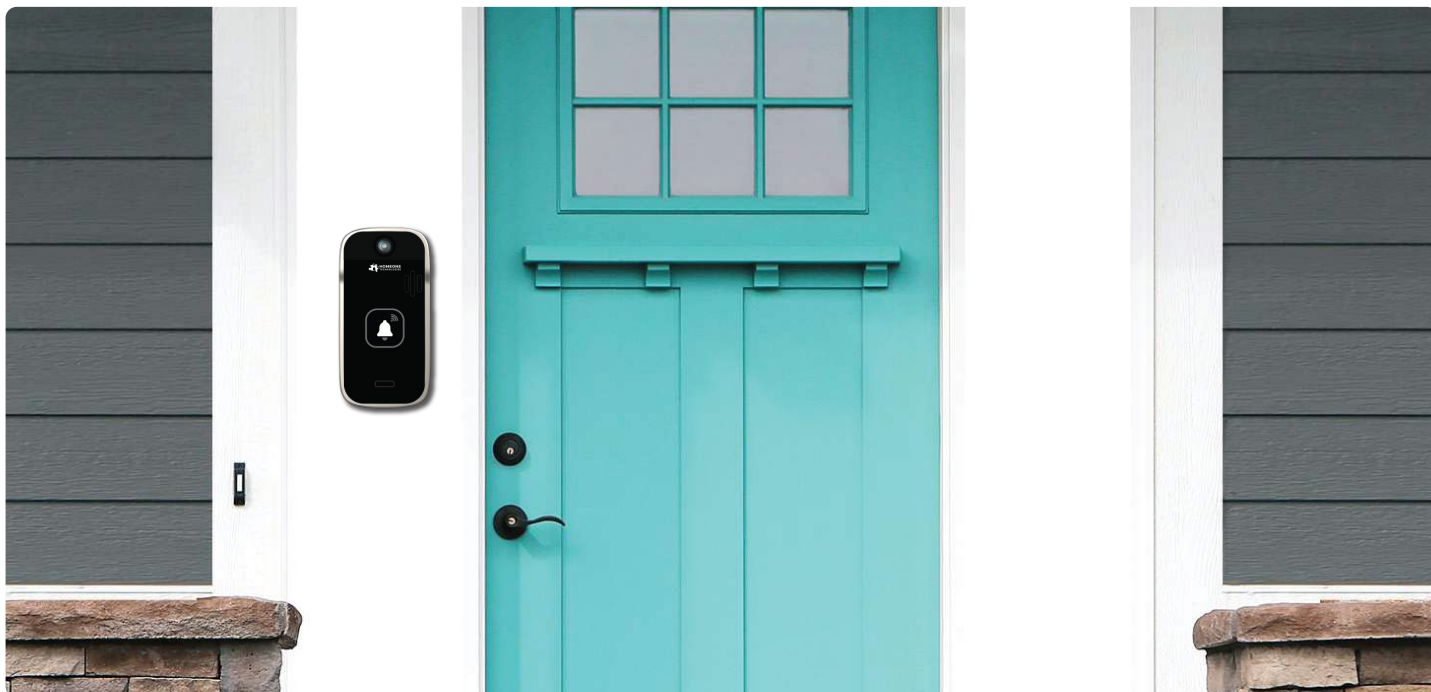

Wireless Range	Upto 30m (WiFi) / 60m(Zigbee)
Power Rating	230 VAC
Variant	Sliding / Swing Gate

WATER LEVEL CONTROLLER

- This Water Level Controller is a smart water-saving device that controls water tank level.
- It can automatically stop your water tank filling motor on set level.
- Control swimming pool water level with ease and handsfree.

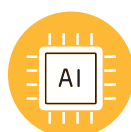

Wireless Range	Upto 30m (WiFi) / 60m(Zigbee)
Power Rating	230 VAC
Variant	one tank / two tank

**EASY
INSTALLATION**

LED STRIP CONTROLLER

- Our LED Strip Light Controller is using to control your rgbw strip led light.
- Control your LED Lighting according to your mood.
- Set timer to activate specific lighting.
- Integrated with smart sensor adjusts lighting according to indoor\outdoor light.
- Integrated with voice assistant, mood and Scheduler setting.

Wireless Range	Upto 30m (WiFi) / 60m(Zigbee)
Power Rating	12V \ 2A, 24V \2A
Variants	RGB controller, WC(Warm Cool)
Color Options	16 million

SMART APP FOR ANDROID & IOS

Available on Playstore & Apple app store

With our Geofencing enabled Smart App you can connect & operate our devices with your mobile. This remote app is for your smart home which includes geofencing, auto schedulers, electricity monitoring, mobile notification, home security and also it has OTA updates. Our remote app has voice control feature to control smart switches with voice command & geofencing.

Download our Smart App for android & IOS devices to operate your home with our mobile app.
